[Industries](https://www.wytrwal.com/), LLC, ("Wytrwal") a leading international consulting firm and government contractor focused on finance, economics, and analytics in the global emerging markets is pleased to announce its participation in [SOFWEEK](#) 2023 at the Tampa Convention Center starting on Monday, May 8, 2023.

"This is a great venue for our firm to meet with the key decision makers in high technology firms and defense contractors," commented Edmund L. Luzine, Jr., a former Army intelligence officer with the U.S. Special Operations Command ("SOCOM") and a former emerging markets investment banker, and the Founder and CEO of Wytrwal.

At SOFWEEK 2023, Wytrwal will meet with corporate executives and technology experts to highlight its services and expertise in the emerging markets, as well as its ability to provide strategic advice to clients during a period of market volatility and global instability generated by conflict in Ukraine, Sudan and other parts of Africa, Venezuela, Afghanistan, Syria, and other Asian nations.

"The turmoil in financial markets includes banking challenges on Wall Street generated by rising interest rates and high inflation, the potential nationalization of private-owned corporate lithium assets in Chile, a trade war with China, and volatility in the energy and commodity markets provide multiple opportunities for the firm to assist its global clientele here at SOFWEEK and also at GEOINT 2023 in St. Louis later this month," Luzine added.

Wytrwal served as an expert consultant, a sub-contractor, at SOCOM Headquarters on MacDill Air Force Base to assist Special Operations Forces in their understanding of the People's Republic of China ("China") and the surrounding frontiers of emerging market nations.

Wytrwal Industries is excited to participate in SOFWEEK 2023 and looks forward to connecting with other industry professionals and sharing its expertise in global markets.
