About 'Cooking By Heart'

Chris Sarandon said, "I grew up working in my immigrant father's All-American restaurant and as a helper at home with my mother's Greek cooking. That personal history provides the theme for many of the main, vivid stories of my early life. So, I'm interested in the stories behind the food we all grew up with, the characters and situations that have played such important roles in our lives, the memories that are evoked when we eat something now that takes us back, the smells, the tastes and the people who were there. I hope our listeners will enjoy these stories, the guests and their memories--and all the great recipes!"

Chris has created this podcast out of his passion for family, friends and food. In addition to the conversation, each celebrity guest shares one of their favorite recipes for all the listeners!
