#### Competitive Terrain:

The global Acne Treatment industry is highly consolidated owing to the presence of renowned companies operating across several international and local segments of the market. These players dominate the industry in terms of their strong geographical reach and a large number of production facilities. The companies are intensely competitive against one another and excel in their individual technological capabilities, as well as product development, innovation, and product pricing strategies.

#### The Leading Market Contenders Listed In The Report Are:

Botanix Pharmaceuticals, Galderma S.A., Ortho Dermatologics (Bausch Health Companies Inc.), GSK plc, Bayer AG, Johnson & Johnson Services, Inc., Pfizer Inc., AbbVie Inc., Teva Pharmaceutical Industries Ltd., and Almirall, S.A

#### Some Key Highlights from the Report

On 24 February 2020, Almirall, S.A, announced to send its product Seysara (sarecycline) to the Chinese regulatory body NMPA in 2023 for approval. It is an innovative tetracycline-derived oral antibiotic used for treatment of inflammatory lesions of moderate to severe acne vulgaris. Almirall S.A has commercialization rights for this product in the U.S., and under a License Agreement from Paratek Pharmaceuticals, Inc., it will develop, register, and commercialize the product in China in exchange for royalties.

The antibiotics segment revenue is expected to account for largest revenue share over the forecast period owing to its increasing popularity among people suffering from acne due to its effectiveness. In addition, increasing launch of new antibiotics are more effective due to an increase in antibiotic resistance among patients.

The topical segment accounted for a larger revenue share in 2021 owing to growing popularity of

Over-the-Counter (OTC) drugs and rapid development of new topical therapy for treatment of acne. Additionally, an increasing number of new discoveries of topical therapy for acne patients will further contribute to revenue growth of the segment.

Report Highlights:

Besides offering a vivid depiction of the global Acne Treatment business sphere and its fundamental operations, the latest report provides the industrial chain analysis and list down the current and future market trends and growth opportunities.

The report includes information on the present and historical market scenarios, which helps forecast the market conditions over the next eight years (2020-2030).

The report scrutinizes the salient factors influencing the growth of the market in the near future.

The strategic marketing recommendations, crucial information related to the new market entrants, and expansion plans of various businesses are poised to provide the reader with a competitive edge in the market.

Key Benefits of the Report:

Comprehensive analysis of the competitive scenario and its changing dynamics

Analytical data with detailed SWOT analysis and Porter's Five Forces analysis

In-depth 8 year analysis of the Global Acne Treatment Market

Critical assessment of the key market segments

Comprehensive analysis of the drivers, restraints, trends, and opportunities

Detailed regional analysis and extensive company profiling

Extensive assessment of current and emerging trends of the market
