

Private Equity Investing with a Self-Directed IRA: What Investors Need to Know

Private Equity Investing with a Self-Directed IRA: What Investors Need to Know

ASHEVILLE, NORTH CAROLINA, USA, May 17, 2023 /EINPresswire.com/ -- When news broke a few years ago that investor [Peter Thiel](#) had reportedly amassed billions of dollars in a Self-

Directed IRA, it raised a few eyebrows. The strategy, apparently, was that Thiel had put private stock within an IRA. According to a recent [post](#) at American IRA, this strategy highlights one key aspect of Self-Direction that not many investors know about: the ability to hold private stock.

Because private stock can potentially have massive long-term value—for example imagine owning Google stock before the company had gone public—it's particularly attractive to investors who want to think about long-term success. This diversification gives investors another option to look at when examining the economic landscape, which can be a major difference for investors who are tired of looking at the same old public stock funds.

Diversification means investors can have more tools to expand a retirement portfolio. It also means that there can be more ways to spread out risk. In other words, investors won't have to rely on any one particular asset, which can feel troublesome at times when the risk in the economy is higher. For example, an investor who is 100% in public stocks may find that they feel nervous when the stock market is in crisis or suffers a crash.

Private equity investing is one option that expands investor's potential options, but it's not the only one. Investors can also use Self-Directed IRAs for precious metals, real estate, private notes, and a variety of other assets that can add to this diversification. And while it's not a requirement that an investor diversify to this broad range of potential assets, it means there are more choices for investors. Other retirement investors may simply choose one, leveraging a specific type of asset experience to build a retirement portfolio.

For more [information](#) about how Self-Directed IRAs work, now's the time to visit www.AmericanIRA.com and review the blog. Additionally, interested parties may reach out

AMERICAN IRA

directly to American IRA by dialing the firm's phone number at 866-7500-IRA.

About:

"American IRA, LLC was established in 2004 by Jim Hitt, Founder in Asheville, NC.

The mission of American IRA is to provide the highest level of customer service in the self-directed retirement industry. Jim Hitt and his team have grown the company to over \$700 million in assets under administration by educating the public that their Self-Directed IRA account can invest in a variety of assets such as real estate, private lending, limited liability companies, precious metals, and much more.

As a Self-Directed IRA administrator, they are a neutral third party. They do not make any recommendations to any person or entity associated with investments of any type (including financial representatives, investment promoters or companies, or employees, agents, or representatives associated with these firms). They are not responsible for and are not bound by any statements, representations, warranties, or agreements made by any such person or entity and do not provide any recommendation on the quality profitability, or reputability of any investment, individual, or company. The term "they" refers to American IRA, located in Asheville, North Carolina"
