Exeter Orthodontics is committed to helping patients attain beautiful and healthy smiles. New Millersville patients receive a complimentary consultation, during which the orthodontist team will determine the most suitable treatment plan for them. Traditional braces remain the most popular treatment available from Exeter Orthodontics due to their high success rate. However, Invisalign is a comfortable and convenient alternative.

"Because braces are affixed to the teeth, they are more effective in some cases," explains Dr. Lauren Wegrzyniak, [orthodontist in Millersville](#). "However, many of our adult patients are opting for the convenience of Invisalign, which can be removed as needed."
