

Aligned Dental Partners Introduces Peerlogic to 750+ Practices to Power their Front Offices

The dental consulting company selects Peerlogic for AI-powered voice insights to improve operations efficiency across their offices.

SCOTTSDALE, AZ, U.S., May 10, 2023

/EINPresswire.com/ -- [Aligned Dental Partners](#) (ADP), a national leader in dental consulting and management services, announced today it is introducing Peerlogic as its AI provider of choice to more than 750 practices.

The consulting company works with emerging dental support organizations (DSOs), group practices, and entrepreneurial dentists to enhance productivity, efficiency, and revenues.

"It's our goal to provide practices with solutions that will make dentists' lives easier, elevate patient care, and grow their business," said Chris McClure, Co-founder of Aligned Dental Partners. "When we saw what Peerlogic offers in terms of efficiencies, alert notifications, revenue saved, and actionable insights, it was an easy decision to implement and recommend it to our consulting clients."

Peerlogic's technology utilizes voice powered Artificial Intelligence that is solely trained on dental calls to provide actionable alerts and unparalleled insights, all with zero human intervention.

"Peerlogic and Aligned Dental Partners are united in our goal to improve office efficiencies, ultimately leading to more time spent on patient care," said Ryan Miller, the CEO of Peerlogic. "AI analyzes vast amounts of call data to provide dental specific feedback and insights to our offices. We believe every patient interaction matters!"

The AI platform is also focused on providing actionable insights such as high value missed calls, missed call alerts, and marketing insights leading to more intelligent spending.
