About Best American Psychics:

Established in 2009, Best American Psychics (BAP) is the only privately-owned psychic directory to promote twice-tested professional psychic readers. In addition, it currently is the **ONLY** privately-owned psychic directory to perform criminal background checks on its members, and it also set the standard for being the first in the nation to implement immediate call button services for its clients.

Unlike other online directories for psychic readings, BAP does not open its membership to any and all psychics. BAP's founder, Shay Parker, does not believe that merely "screening" their members is enough. Instead, they have a trained staff and volunteer clients that personally test each and every psychic.

Shay Parker strives to be as certain as possible that BAP'S clients receive accurate psychic advice from ethical, professional practitioners. As such, Shay developed a stringent method for selecting only the elite, and they are listed on BAP only after they've undergone a series of checks and balances.

Shay Parker believes in psychic abilities, obviously, but she is also critically aware that many out there are unscrupulous with their gifts. At BAP, they will not tolerate unethical or unprofessional behavior. They promote only the best, and they deliver.
