

PINK PARADISE WELLNESS SPA ANNOUNCES AN OPEN HOUSE ON MAY 18 AND NEW BODY TONING AND CONTOURING SERVICE OFFERINGS

The Pink Paradise Wellness Spa announced they will be hosting an Open House to be held on May 18 from 3-6pm at our location on 927 S Lafayette St. Shelby, NC

SHELBY, NC, USA, May 11, 2023 /EINPresswire.com/ -- The Pink Paradise Wellness and Day Spa,

“

We are bringing many new and exciting procedures and treatments to the Shelby area that we decided hosting an Open House was the best way to showcase all that Pink Paradise Wellness Spa has to offer”

Leslie English, Founder

led by Founder [Leslie English](#), FNP-C, today announced that they will be hosting an Open House to be held on May 18 from 3pm – 6pm at our location on 927 S Lafayette St. Shelby, NC.

Pink Paradise Wellness and Day Spa also proudly announced that it has added two new [body toning](#) and contouring treatments to its robust Medical Spa offerings, the Rohrer Aesthetics’ Body Sculp and Body Tone devices. Our experienced practitioners utilizing these award-winning devices will provide our patients unsurpassed outcomes with the most innovative advancements in

minimally invasive body toning and contouring. Non-surgical body toning and body contouring treatments are some of the fastest growing segments in medical aesthetics.

The Rohrer Aesthetics’ Body Tone device stimulates muscle growth using bio-lectric energy pulses to exercise different muscle groups to both prevent muscle atrophy and build muscle mass. The Body Tone device generates approximately 20,000 muscle contractions within 30 minutes which yields a stronger, tighter core and well-defined muscles in the treated areas. In most patients, BodyTone treatments creates an increase in muscle development to build muscle and tone the abdomen, flanks, buttocks and other regions of the body.

The BodySculp device permanently destroys fat cells with 1060nm diode-laser energy. Specifically created for patients who want to avoid liposuction surgery, BodySculp’s treatment reduces stubborn fat without harming the skin or surrounding tissue.

Independently or together the treatments with these two devices offer patients the best non-surgical body toning and contouring procedures on the market today.
