COVID-19 Scenario:

□ The pandemic accelerated the adoption of zero-touch provisioning solutions as businesses started recognizing the benefits of automation and digital transformation. Scalability, flexibility, and affordability are the key factors that make zero-touch provisioning solutions attractive to businesses.

□ Also, due to the shift toward remote work, zero-touch provisioning tools became essential for protecting remote devices and networks. In a nutshell, the pandemic increased the demand for user-friendly zero-touch provisioning solutions. Companies were looking for solutions that are easy to deploy and manage and do not require highly specialized technical knowledge.
