

# Cansel Announces Trimble® Mobile Mapping Certified Service Partnership

*Canadian geospatial solution provider  
one of three companies qualified globally  
to service and repair Trimble mobile  
mapping solutions*

BURNABY, BC, CANADA, May 15, 2023

/EINPresswire.com/ -- Cansel, a leading technology solutions provider to industries including engineering, surveying, construction, and utilities, today announced that it is now a Trimble® Mobile Mapping Certified Service Partner. It is only the third company globally to receive this qualification.

“

Mobile mapping solutions are critical to many of our clients' business operations, and keeping these systems up and running is essential.”

*Martin Trudelle, President and  
CEO of Cansel*

A Trimble Authorized Distributor and Preferred Service provider, Cansel is expanding its service operations with the highly specialized skills and qualifications necessary to maintain and repair the Trimble [MX9](#) and [MX50](#) mobile mapping solutions.

Cansel's service center in Quebec City will be Canada's hub for servicing Trimble mobile mapping systems. It is one of nine service centers staffed by more than 20 dedicated technicians across the country. All technicians are factory-

trained and certified by Trimble, as well as suppliers including Radiodetection, HP, and Spectra, among others.

“Mobile mapping solutions are critical to many of our clients' business operations, and keeping these systems up and running is essential,” says Martin Trudelle, President and CEO of Cansel. “For decades, we've offered the most technically advanced service centers in North America. We are proud to now offer fast and reliable services that get mobile mapping systems back into our clients' hands, minimizing their downtime and maximizing productivity.”
