

Construction Sealants Market Size Worth USD 12.32 Billion by 2027 | Sika AG, 3M, BASF SE H.B. Fuller Company

*Construction Sealants Market Trends
-Growing demand from emerging
markets in the APAC region*

VANCOUVER, BRITISH COLUMBIA,
CANADA, May 15, 2023

/EINPresswire.com/ -- The [global construction sealants market](#) is projected to be worth USD 12.32 Billion by 2027, according to a current analysis by Emergen Research. The construction sealant market is observing high demand attributed to the growing demand in residential

buildings. The growing popularity and deployment of various cladding styles on residential buildings drive construction sealants' demand to deliver air and weatherproofing while accommodating for any movement or stresses that the buildings may be subjected to post-construction. Sealants improve the durability of repaired joints and provide an effective means to augment the building's overall sustainability without substituting existing construction materials.

Emergen Research

Growing demand for green construction is a significant factor in fueling market demand. The use of construction sealants improves the energy-efficiency of buildings and thereby reduces environmental stress. Green building standards such as LEED play an important role in

promoting the market growth.

In the construction industry, ensuring the durability and longevity of buildings and structures is critical. While concrete, steel, and other building materials are strong, they are not impervious to weather, moisture, and other external forces. This is where construction sealants come in handy. Construction sealants play an important role in protecting structures, preventing leaks,

Moreover, surge in participation in shooting sports is also positively impacting market growth. Rising demand for high precision, lightweight, and compact weapons at these events is expected to continue to propel growth of the market going ahead. Increase in demand for weapons for self-defense and upsurge in political instability in various countries is further fueling growth of the market. Trade of Construction Sealants are playing a crucial role in economies of countries with civil war situations, and where need for increasing security personnel is crucial.

Some players analyzed in the report are:

Sika AG, BASF SE, Mapei SPA, The Dow Chemical Company, 3M Company, Henkel AG & Co. KGaA, Wacker Chemie AG, Asian Paints Ltd., HB Fuller, Bostik SA

Some Significant Report Highlights:

In September 2019, Sika entered into an agreement for the acquisition of Crevo-Hengxin, a firm involved in the production of silicone adhesives and sealants deployed in construction and industrial applications.

Polysulphide sealants find extensive usage in commercial construction to provide resistance to wet and cold conditions owing to their impermeability.

Reactive sealants possess improved elasticity, which is advantageous for constructions facing expansion and shrinkage. In contrast, solvent-based sealants are less elastic and could experience premature breakage.

In flooring, construction sealant gives a smoother surface making the floor is easier to clean. Also, sealants prevent alkali and lime leachate from the concrete, leaving stains marks on the slab surface, thus adding to visual appeal.

Europe held the second-largest market share in 2019, attributed to the growth of the construction industry in the region and a rise in the purchasing power of the people.

Key Reasons to Buy This Report:

Industry Insights: The Construction Sealants Report includes insightful industry information such as current market trends, development potential, and market dynamics. It provides an in-depth examination of the construction sealants industry, including market size, market share, and key players. This data is critical for companies and investors who want to make educated decisions and capitalise on market possibilities.

The research provides a detailed competitive analysis of the construction sealants industry. It contains data on the top market participants, their strategies, product portfolios, and market positions. This analysis allows organisations to assess their competition and develop successful tactics for gaining a competitive advantage.

Product Portfolio Evaluation: The research gives a thorough examination of the many types of building sealants on the market. It contains comprehensive information about their qualities, uses, and performance characteristics. This assists firms in determining the viability of various sealant kinds for certain construction projects and choosing the best ones.

Market Forecast and Future Trends: The Construction Sealants Report forecasts the market for the next few years, including predicted growth rates, market segmentation, and emerging trends. This data supports firms in assessing the building sealants market's future possibilities and aligning their plans accordingly. It allows them to keep ahead of the competition and spot fresh chances.

Regulatory and Environmental Considerations: The report discusses the regulatory landscape and environmental concerns related to building sealants. It explains the requirements for compliance, safety rules, and environmental impact evaluations. This data assists businesses in ensuring that their sealant products satisfy the relevant standards and regulations, promoting customer trust and improving their reputation.

In addition, the analytical data are presented in a well-organized format in the form of charts, tables, graphs, figures, and diagrams in the report. This makes it easier for readers to comprehend the market scenario in a beneficial way. In addition, the report aims to provide a forward-looking perspective and an instructive conclusion to assist the reader in making profitable business decisions. The report concludes with a comprehensive SWOT and Porter's Five Forces analysis of the segments anticipated to dominate the market, regional bifurcation, estimated market size and share, and more.

On the basis of type, the market is segmented into

Resin Type Outlook (Revenue, USD Billion; 2017-2027)
Silicone

Polysulfide

Polyurethane

Emulsion

Plastisol

Others

Usage Outlook (Revenue, USD Billion; 2017-2027)

Bonding

Protection

Insulation

Cable Management

Sound Proofing

Product Type Outlook (Revenue, USD Billion; 2017-2027)

Water-Based

Solvent-Based

Reactive

Others

The report further divides the Construction Sealants market into key segments such as types, applications, end-user industries, technologies, and key regions of the market. The report also sheds light on the segment and region exhibiting promising growth in the Construction Sealants market.

North America (U.S., Canada)

Europe (U.K., Italy, Germany, France, Rest of EU)

Asia Pacific (India, Japan, China, South Korea, Australia, Rest of APAC)

Latin America (Chile, Brazil, Argentina, Rest of Latin America)

Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of MEA)

Thank you for reading our report. Customization of the report is available according to the requirements of clients. In case of further queries about the report, do get in touch with us. Our team will make sure your report is tailored according to your needs.
