

# LexBox launches AI-powered gamified learning platform for children with dyslexia

*LexBox launched AI gamified platform that personalizes learning for dyslexic kids, improving reading, memory, and accuracy.*

CHARLOTTE, NC, USA, May 15, 2023 /EINPresswire.com/ -- LexBox, Inc., a pioneering edtech company, today announced the launch of its AI-driven, gamified learning platform specifically designed for children with dyslexia. By providing personalized and engaging learning experiences, LexBox aims to empower dyslexic children to excel academically, boost their self-confidence, and build a brighter future.

Using AI, machine learning, and gamification techniques, LexBox creates tailored lessons targeting each child's specific needs, helping them improve their reading, memory, and accuracy skills. In addition to offering customized learning modules, [LexBox provides](#) progress tracking and expert guidance for parents, guardians, and educators.

"With millions of children around the world struggling with dyslexia, we recognized a need for an innovative, effective, and accessible solution," said Jeff Bennett, Marketing Manager at LexBox, Inc. "LexBox's gamified learning platform not only addresses the challenges faced by dyslexic children but also offers a support system for parents and educators, ensuring a holistic approach to learning."

LexBox is well-positioned to capture a significant share of the multi-billion dollar edtech market with a hybrid business model consisting of B2C subscriptions and B2B SaaS offerings. By helping over 2 million children in the U.S. and 60 million worldwide, LexBox aims to create a positive impact on the lives of dyslexic children and their families.
