"Anthony and his team offer [Entrex](#) a fully operational external merger and acquisition team to roll-up a series of strategic companies without the internal costs" said [Stephen H. Watkins](#) CEO of the Entrex Carbon Market.

“

We believe that we can extend Entrex's existing leadership position in the market through a series of strategic and significant acquisitions"

Anthony O'Leary

"We believe that we can extend Entrex's existing leadership position in the market through a series of strategic and significant acquisitions" said Anthony O'Leary CEO of Alliance Group Capital Markets. "Our commitment and intent are to quickly double the existing \$40 million in projected Entrex EBITDA for this year which should create a substantial entity which should positively affect shareholder value".

"As part of the performance-based contract the Alliance Group has received a stock option, upon completion of agreed milestones, to purchase 5% of the company for \$24,051,613. We believe this aligns all of our interests for both corporate growth and shareholder appreciation", continued Watkins. "Our projections indicate this option should have shares worth potentially double the purchase price, if not more, assuming we all do our jobs as envisioned".

“Alliance will help us add to the existing two executed investments and/or purchase agreements we have with strategic companies” said Tom Harblin President of the Entrex Carbon Market. “As we work with lenders to grow our \$100 million in short term production needs, this allows Alliance Group the ability to quickly build corporate value through our acquisition strategy”.

About Entrex:

Entrex Carbon Market offers a leading marketplace to find, research, track, manage and trade institutional voluntary carbon offset securities. Entrex offers institutional buyers access to quantified and qualified carbon offsets to help corporate buyers manage their carbon footprint. Through our patent pending “CO/SETT” security companies can move carbon offset annual expense to an tradable annual carbon offset dividend asset – neutralizing their profit and loss statement while neutralizing their carbon footprint.
