(Germany), William Demant Holding A/S (Denmark), Beltone (Canada), Enabling Technologies (United States), GN ReSound (Denmark), Hoveround (United States), GN Store Nord AS (Denmark), Invacare Corporation (United States) and Karma Mobility

Assistive Technology Market Study guarantees you to remain / stay advised higher than your competition. With Structured tables and figures examining the Assistive Technology, the research document provides you a leading product, submarkets, revenue size and forecast to 2027.

Comparatively is also classifies emerging as well as leaders in the industry. Click To get SAMPLE PDF of Assistive Technology Market (Including Full TOC, Table & Figures) @ <https://www.htfmarketreport.com/sample-report/3715208-global-assistive-technology-market-3>

Assistive Technology is used in any product or device that is intended to improve the quality of life and independence of people with disabilities. According to estimates from the United States Centers for Disease Control and Prevention, in the United States, one in four adults is living with a disability. Moreover, the baby boomer generation is more likely to have a disability than previous generations as they age, which means that this ratio is likely to grow in the future. Globally, more than 1 billion people of the world's population, experience some type of disability. As per the World Health Organization (WHO) by 2030, two billion people will require access to at least one assistive technology, and many will require two or more. This will drive the market growth in the forecast period. This growth is primarily driven by Increasing Adoption Of Technologically Advanced Devices and Augment Sales Of Mobility Aids Due To Rising Number Of People With Cancer.
