

CritterCoin Releases ChatGPT-powered Houses System for Schools

First Houses System for Education with Artificial Intelligence

DALLAS, TX, USA, May 22, 2023 /EINPresswire.com/ -- [Dallas, TX] - RedCritter is thrilled to announce the launch of their groundbreaking AI-Powered Houses System for Schools, CritterCoin. This innovative solution harnesses the power of OpenAI's ChatGPT AI to transform schools' cultures by infusing them with a sense of teamwork and common goals.

CritterCoin Houses Display with ChatGPT AI

CritterCoin's AI-Powered Houses System bridges the learning gap by increasing student motivation through the use of AI-enabled, self-paced, gamification and adaptive learning techniques. With this revolutionary system, students are more engaged than ever in their education, earning 3D collectible coins and unlocking rewards as they progress in their learning.

“

By combining the power of ChatGPT with Houses and PBIS, CritterCoin assists schools by providing an automated and dynamic positive feedback-loop which helps students learn and thrive.”

Mike Beaty

The key features and benefits of CritterCoin's AI-Powered Houses System include:

Automated Issuing of Points and Rewards: Critter's AI automatically tutors students and rewards them and their Houses with points for their efforts.

Interactive Learning Adventure: Learning becomes a team-based adventure, fueling students' curiosity and

engagement. By earning collectible coins and unlocking rewards, students are motivated to explore and excel in their studies.

Personalized Assistance: CritterCoin's AI acts as a virtual teaching assistant, providing individualized support and guidance in any subject. The system adapts to each student's specific

needs, offering tailored learning paths and personalized educational content with a focus on knowledge retention.

Progress Tracking and Motivation: Students and parents can monitor progress and achievements through the CritterCoin App. As students advance, CritterCoin's AI rewards their efforts, fostering a sense of accomplishment and motivating further growth.

CritterCoin's AI-Powered Houses System has already garnered significant praise from educators and students who have witnessed its transformative impact. Teachers have observed increased student participation, motivation, and academic success since implementing the system. Students, in turn, have experienced a newfound enthusiasm for learning, resulting in improved learning outcomes.

"We are thrilled to introduce our AI-Powered Houses System for Schools," said Mike Beaty, CEO of CritterCoin. "By combining the power of ChatGPT with Houses and PBIS, CritterCoin assists schools by providing an automated and dynamic positive feedback-loop which helps students learn and thrive."

CritterCoin invites educators and schools to unlock the future of education by using the ChatGPT AI-Powered Houses System in their classrooms. To learn more please visit CritterCoin's website at www.crittercoin.com.
