

Solar Royal, LLC announces upgrade for its premium SR1800 Solar Attic Fan ventilation solution.

AUSTIN, TEXAS, USA, May 18, 2023

/EINPresswire.com/ -- Solar Royal, LLC announces upgrade for its premium SR1800 [Solar Attic Fan](#) ventilation solution.

Austin, TX, USA, May 18, 2023 – Solar Royal's new 35Watt solar [attic fan](#) has been upgraded and incorporates all the latest solar technology to bring you even greater solar panel efficiency in the same sleek, low-profile package. "We are always striving to innovate and bring the best technology on the market to our customers at an economical price. Our goal is to make the best solar ventilation solutions on the market with proprietary technologies," said Roy Stocker, President of Solar Royal, LLC.

Premier solar ventilation solutions company

“

Our goal is to make the best solar ventilation solutions on the market with proprietary technologies”

Roy Stocker

The latest model of Solar Royal's flagship product, the SR1800 solar [attic ventilation](#) fan, uses upgraded monocrystalline cells that are technologically more efficient, allowing our engineers to develop a solar panel that is more effective yet still maintains the exact dimensions.

The new 35Watt solar attic fan is available in three color options: black, brown, and weather-wood. These color options allow homeowners/contractors to choose a fan that best matches the color of their existing roof, allowing this already low-profile design to blend seamlessly in with your roof. Included in the package is our thermoball thermostat and a firefuse.
