**Definition:**

Food and grocery retail refers to the sector of the retail industry that specializes in the sale of food and grocery products to consumers. It encompasses various types of establishments, including supermarkets, hypermarkets, convenience stores, specialty food stores, and online grocery retailers. Food and grocery retail is a fundamental part of the consumer goods industry, meeting the everyday needs of individuals and households for food and other essential products.

**Market Trends:**

The adoption of online grocery shopping has been on the rise, driven by convenience, wider product selection, and improved delivery services. Consumers increasingly appreciate the ability to order groceries online and have them delivered to their doorstep, saving time and effort.

**Market Drivers:**

Consumer preferences and lifestyles have a significant impact on the food and grocery retail market. Consumers are increasingly looking for healthier food options, organic and sustainably sourced products, and a wider variety of international and specialty foods.
