Benchmark Gensuite's Disclosure Director is a comprehensive digital hub for ESG data management and disclosure reporting that was developed and launched in 2021 to help users meet the challenges of compiling and disclosing investment-grade ESG data. This holistic digital ESG platform helps companies take charge of ESG data management, ensure data accuracy, track performance KPIs, and enable ESG impact. Key frameworks and standards such as CDP, GRI, SASB, and TCFD are integrated directly into Disclosure Director, allowing companies to report their ESG performance easily and in alignment with ever-changing industry standards and stakeholder demands.□
