

MIT, Adobe, and Ryan Reynolds' Organization to Participate in the Bulgarian event SlavConf

Industry leaders to explore technology's impact on the arts, education, and creativity at the seventh annual SlavConf.

SOFIA, BULGARIA, May 19, 2023

/EINPresswire.com/ -- A unique convergence of leading innovators and experts from the global creative and technology sector will take place at the annual [SlavConf](#) Decipher conference on May 26-27. Coordinated by [Atanas Neychev](#) and [Lilia Ivanova](#), this year marks the seventh successful run of the much-anticipated event.

SlavConf Decipher 2023: A global virtual meeting point for technology, creativity, and innovation

The conference boasts an impressive list of participants this year, featuring the Massachusetts Institute of Technology (MIT), actor and entrepreneur Ryan Reynolds' organization, and globally acclaimed software company Adobe. SlavConf has rapidly established itself as a critical platform for idea and strategy exchange, uniting key figures from the realms of creativity and technology across the globe.

“

Our aim is to unify these diverse mosaics of thoughts, cultures, and perspectives, fostering a collective analysis of business and technology development within arts and culture.”

Atanas Neychev

The conference agenda includes interactive sessions and presentations aimed at examining the influence and potential of technology within the creative industries and exploring career development across different global regions. It will shed light on various pivotal themes such as hybrid talents, the future of immersive experiences, addressing educational challenges creatively, and the dynamic landscape of the creative industries, among others.

Registration for SlavConf Decipher is currently open and free of charge on the platform [marketplace.slavconf.com](#). The event promises an engaging, intensive, and inspirational discourse and offers a unique opportunity to connect with industry pioneers and thought

leaders.

The two-day conference provides a crucial platform for participants to connect, share, learn, and discuss the future of technology and creativity, solidifying Bulgaria's position on the global digital and creative map. This year's SlavConf Decipher continues its tradition of gathering an extraordinary group of minds from diverse disciplines, backgrounds, and experiences, underlining the shared commitment to driving innovation and progress within the creative and technological sectors.

We warmly welcome all those interested in participating in the dialogue about the future of technology, creativity, and their intersection.

Atanas Neychev
