

# Atticcleanup.co is pleased to announce a new attic clean up and decontamination blog

*When to clean or disinfect an attic? Maybe there are rodents, bats, floods, or mold. Top 5 tips for attic cleaning.*

USA, May 19, 2023 /EINPresswire.com/ --

[Attic Cleanup](#), a sister company of Get Bats Out, has recently published a helpful blog post for homeowners who are dealing with attic cleanup and decontamination issues. Get Bats Out is a trusted name in the industry, with over 25 years of experience in attic remediation.

The blog post provides valuable information on the top 5 things you need to know about attic cleanup and decontamination. For instance, it highlights the fact that attic air can expose you to health hazards and that thorough cleanup is essential for effectiveness. Additionally, the post emphasizes that professional equipment and methods are required for proper attic sanitizing and that this process may even be covered by your insurance.

“

Does your attic need to be cleaned or decontaminated? Before you make your decision, here are 5 things you should know about attic cleanup and decontamination.”

*Michael Koski*

Finally, the post stresses that hiring a professional is often the safest and most effective way to handle attic cleanup and decontamination. So, if you're dealing with issues like rodent infestations, floods, or mold in your attic, it's important to take action right away to protect the safety and cleanliness of your home.
