

New APTA 590nm Amber LED outdoor flood lighting, EXTREME-LIFE

APTA 590nm amber LED lights are designed to provide powerful, reliable lighting for all high-mast lighting applications. IP66, IK10 and EXTREME-LIFE Rating

WORCESTER, MA, UNITED STATES, May 23, 2023 /EINPresswire.com/ -- Access Fixtures, a leader in commercial and industrial LED lighting, today announced the launch of APTA, a new line of LED 590nm Amber wildlife and turtle-friendly lights. This range of fixtures' exceptional heat sink design produces an EXTREME-LIFE rating of L70 @ 200,000 hours, providing years of virtually maintenance free performance. These fixtures provide flawless lighting with premium anti-glare illumination. Its 590nm Amber LEDs are perfect for the eco-conscious

consumer and those requiring turtle- and wildlife-friendly lighting solutions. The range is also programmable, with the Microwave Motion Sensor being able to control multiple APTAs, allowing for energy use to be minimized through custom programming options.

"The new APTA LED 590nm Amber area lights are ideal for areas with wildlife conservation concerns and requirements" said Access Fixtures CEO, Steven Rothschild. "These flood lights are designed with advanced optics and heat management to provide the most powerful and reliable LED high bay lighting available."

Remote LED drivers are also incorporated into the APTA 590nm Amber,. There are several mounting types available, including U-mounting, T-mounting, and L-mounting. Its high-grade aluminum finish provides exceptional heat sink design, and is available in both black and gray. A photocell is available as an optional extra, allowing APTA fixtures to turn on automatically when natural light decreases. Bird spikes are also available to stop wildlife damaging the fixture. The fixture's [IP66](#) rating provides total protection from dust and strong jets of water, making the
