"Coming from a strong family business background and being an IT professional, I felt motivated to become a business owner and serve my community. The Avon store has undergone a refresh to feature the brand's clean and modern aesthetic. Other updates include a Freestyle Coke machine, new kiosks, and the latest POS system.

Established in 2011, BurgerFi is a chef-driven concept with responsibly sourced ingredients including 100% All-Natural Angus Beef with no steroids, antibiotics, growth hormones, chemicals, or additives. Other favorites include the VegeFi® Burger, Fi'ed Chicken Sandwich and Frozen Custard Desserts. BurgerFi also offers a Vegan Multigrain Bun, Udi's® gluten-free buns, and a Green Style (lettuce) bun option to better serve its varied customer base.

“As a small business owner, the support and patronage of our community fuels our passion and drive to deliver the best dining experience possible. Seeing familiar faces, building relationships, and being a part of our customers' lives is what makes being a small business owner truly special,” added Boosa. “We’re dedicated to creating a space where people can come together, enjoy great food, and feel a sense of belonging. We want to build a partnership with our community, and we are incredibly grateful for their trust and support.”
