About Manhattan Edit Workshop's Six Week Intensive Workshop: The post-production industry is highly competitive, and knowing the industry standards – Premiere Pro, After Effects and Avid Media Composer – is critical for success. MEWSshop offers all of this in one comprehensive six-week course, the training that aspiring post-production professionals need in each of these editing applications, taught by certified instructors.

Beyond the creative and technical aspects of editing, a portion of the Six Week Intensive Workshop is focused on the best strategies to secure a job once the class ends. Students will draft cover letters and resumes, which will be refined over the span of the class and discuss with instructors about interview strategies and job applications, as well as how to appropriately set rates and find the right work for each graduate's unique interests.

Also included in the Six Week Intensive is the option to gain your Avid Certification. Avid certification provides tangible benefits including:

- Industry recognition of proven expertise in Avid Media Composer.
- Career advancement with measurable value to employers.
- Differentiate yourself with certification-specific badges and digital credentials that can be easily managed and shared in LinkedIn and other social media, added to your personal marketing materials, and includes a printable certificate of achievement.

We will help you prepare for the Avid Certification exam with a class prep session. By passing the exam, you'll earn the coveted title of Avid Certified Specialist and gain a valuable edge in the job market.

The Six Week Intensive will run both online and in person Monday - Friday from 10am EST - 5pm EST with an hour lunch.

In person students will be provided with an iMac workstation to use during class time. The

workstation comes preloaded with programs and media for the course.

Online students will be provided with class media and projects prior to class start date. Lessons, screenings, and discussions will take place via Zoom. Students will need to obtain an Avid license from Avid or have or obtain an Adobe Premiere Pro license for the duration of the class. These can be purchased separately, or Manhattan Edit Workshop can direct students to free or temporary options. Please make sure that your home computer specs are up to standard to handle these applications prior to taking the workshop. Manhattan Edit Workshop administration will do a trial run the week before the class begins with each student to verify that everything is working.
