Healthcare outsourcing, also known as medical outsourcing or healthcare offshoring, refers to the practice of contracting or delegating certain healthcare-related tasks, services, or processes to external third-party organizations or service providers. It involves transferring specific healthcare functions from an organization or healthcare provider to another entity that specializes in providing those services.

The outsourcing of healthcare services has become increasingly common as healthcare organizations seek to streamline operations, reduce costs, enhance efficiency, and focus on their

core competencies. It allows healthcare providers to leverage the expertise, resources, and economies of scale offered by external service providers.

Healthcare Outsourcing Market: Demand Analysis & Opportunity Outlook 2030
