The deployment of language learning services through the on-premise method enables organizations to have greater control over the management and security of their businesses. This encourages them to install online foreign language learning solutions within the premises. The segment will contribute to the maximum market shares since the on-premise platform enables end-users to customize the solution while choosing delivery platforms, content, and schedule.

This report focuses on the global Corporate Online Language Learning status, future forecast, growth opportunity, key market and key players. The study objectives are to present the Corporate Online Language Learning development in United States, Europe and China.
