"My joining Altumint is a testament to the high integrity of the company's leadership and their commitment to developing technology that can save lives in communities," said Magaw.

In this capacity, Chief Magaw will join a roster of seasoned law enforcement executives sharing their vision on how new technologies, including Altumint's AI-enabled solutions, can benefit

diverse law enforcement communities and the public they serve.

About Mark Magaw

Chief Magaw has an extensive background in law enforcement, having started his career in the Secret Service Uniform Division before dedicating most of his tenure to the Prince George's County Police Department. He held multiple leadership positions there, including Chief of Police and Director of Public Safety. In addition, Chief Magaw was pivotal in establishing the Regional Area Gang Enforcement Unit and the Civil Disturbance Unit, which remain integral components of the department's operations.

Chief Magaw earned a bachelor's degree from James Madison University and a master's in management from Johns Hopkins University.

He has undergone specialized training with various esteemed organizations such as the Anti-Defamation League, the Department of Homeland Security, and the Federal Emergency Management Agency (FEMA). Furthermore, he has graduated from the National Executive Institute of the United States Department of Justice, underscoring his dedication to pursuing excellence in his field.

Chief Magaw is a member of the International Association of Chiefs of Police (IACP) and the Police Executive Research Forum (PERF), served as the Chairman of the IACP's Firearms Committee and the Baltimore/Washington High-Intensity Drug Trafficking Areas' (HIDTA) Executive Board and was on the Steering Committee for the Prince George's/Montgomery County Gang Prevention Task Force.

About Altumint, Inc.

Driven by safety and integrity, Altumint offers a resourceful and adaptive partnership to immediately improve public safety. We engineer, manufacture, and support a visual technology system and citation process using artificial intelligence to capture data on people and vehicles who break the law. We add support and resources for law enforcement to monitor speeding in school zones, work zones, running red lights, and ignoring school bus stop arms—anything compromising community safety.

Our expert team provides unmatched customer service and is committed to making responsive changes in technology and processes based on customer and partner feedback. For additional information, please visit our website at altumint.com.
