

cloudEQ Earns Microsoft Solutions Partner Designations

Tech company garners accolades in Infrastructure, Digital & App Innovations, and Data & AI Solutions categories

NOVI, MICHIGAN, UNITED STATES, May 31, 2023 /EINPresswire.com/ -- cloudEQ, tech industry heavy-hitter in cloud migration services, announces new success in three of Microsoft's Solution Partner designation categories. These designations are earned by demonstrating the superlative quality of work on the Azure platform through certifications, customer satisfaction, usage growth, and deployment.

This achievement underscores cloudEQ's strength in delivering smart, agile, and effective solutions on a global scale.

As an Infrastructure Solution Partner, cloudEQ has access to the latest tools and resources from Microsoft, allowing us to provide our clients with the best possible outcomes on a proven, powerful platform. The Digital and App Innovations designation recognizes our team's expertise in Microsoft technologies and confirms our ability to deliver exceptional services to our clients, while the certifications required to achieve Data & AI Solution partnership prove our ability to meet any customer need using the latest technology offerings.

Regarding this accomplishment, Kristine Otte, cloudEQ's Director for Global Partnerships added, "Achieving the Solution Partner designations strengthens our Microsoft partner synergies and provides enormous value for Azure platform customers. We are inspired and motivated to keep this momentum and continue working toward future collaborations."

We are honored to join this exclusive group of industry giants. These designations aim to guide customers in identifying partners who excel in their area of need, guaranteeing the most successful project outcomes. We welcome inquiries about how we can assist you.

cloudEQ is a global professional services company with hundreds of certified experts in Microsoft, Amazon, Google, New Relic, ServiceNow, Big Panda and much more. We are Fortune 100 executives, experienced leaders, and technical experts with a mission to provide experience-based cloud services.
