

Gemini IT Producer Software is Reshaping the Filmmaking Industry

Gemini IT Producer is a fully integrated software that allows users to access one tool for all their production needs.

LOS ANGELES, CALIFORNIA, UNITED STATES, May 25, 2023

/EINPresswire.com/ -- Founders of Gemini IT Producer Software

Stephanie Moore and Stephanie

Harrison are ready to revolutionize the

film industry. With backgrounds in filmmaking, producing, budget, and more they saw a need that was crucial for productions to run smoothly. After months of collaboration with producers, writers, directors, and entertainment experts "Gemini IT Producer" was born.

Gemini Crown Tech

Gemini IT Producer is a fully integrated software that allows users to access one tool for all their production needs. Improve your production workflow, reduce costs, save time and limit errors. Gemini IT Producer is an easy-to-use, all-in-one production management software that combines creative, accounting, collaboration, document management, production management (call sheets, scheduling, script breakdown), and business processes so you can work faster and smarter.

In addition to the software, Gemini IT Producer provides a mobile app that allows users to access their projects, and calendars, maintain their user profiles, receive/send notifications, maintain their expense reports, and more.

PARTIAL LIST OF WHAT'S INCLUDED

Call sheets specific to the departments with the ability to block sensitive information

Push Notifications sent to everyone on the call sheet for the scheduled day identifying Weapons and Stunts- and chain of command, as well as expected times

Breakdowns that identify who is assigned to what elements/ chain of command

Stripboards which include automatic movement to the boneyard when not filmed on a scheduled day.

Messaging in the app- no need for outside emails/texts for production

Health Information- allows for allergies, special needs, and concerns to be stored on the user's

profile, but only given to appropriate staff and carries over from project to project
