FRANKLIN, TN, USA, May 26, 2023

[/EINPresswire.com/](https://www.einpresswire.com/) -- The 2023

National Cancer Survivors Resource

Guide is a carefully curated list of

national organizations that offer

information, resources, and support to

cancer survivors and their families. Divided into categories by cancer type, the Resource Guide

makes it easy for people with cancer to find resources matched to their needs.

In the U.S. today, there are more than [18.1 million](#) people living with a history of cancer. This represents about 5.4% of the population. That number is expected to reach more than 26 million by 2040.

As the number of cancer survivors continues to grow, it is becoming ever more important to address the unique needs of this group of people. The NCSDF Foundation aims for the 2023 National Cancer Survivors Resource Guide to be another tool people with cancer can use to get support.

Cancer support organizations, hospitals, and treatment centers are encouraged to print copies of the Resource Guide to distribute to cancer survivors on National Cancer Survivors Day®.
