The franchise has shared October of this year as its targeted launch date.

“

We want to expand our group of schools across Houston, Texas and the greater US to spread the Montessori method to as many kids as possible in early childhood.”

Syed Meerza, founder of Forever Learning Montessori

Founder Syed Meerza expressed excitement over his company's first sale, pointing out that the family-focused philosophy of the school is magnified with a team like the Mehra family.

“We are a family-oriented business that takes great pride in what we do in the education industry,” Meerza said. “We are hopeful and confident in the Mehra family since they are a close knit group and bring a strong background in the education industry, including several years working with Montessori. They are passionate in their joint effort, so it

made them the easy, and more importantly, the right choice!”

The Montessori franchise has continued to gain interest throughout the US as it offers qualified entrepreneurs with a background in education a step into a powerful industry. According to [IBIS World](#), educational services accounted for \$2.1 trillion in revenue in 2022 alone.

“We want to expand our group of schools across Houston, Texas and the greater US to spread the Montessori method to as many kids as possible in early childhood,” said Meerza. “This age and learning period is the most influential within a child's education, and it's important to lay a

good foundation for their future educational endeavors.”

Forever Learning Montessori is offering exclusive territories throughout the nation. The company gives its franchisees a [strong support system](#) complete with ongoing operational and marketing guidance, plus a robust training program that includes hands-on training at both a corporate location and the franchisee’s location. Meezra and his team are eager to bring on more franchise partners in order to reach more students with his program.

“We want to reach and touch as many young minds as possible through the Montessori Method of Education from Texas to beyond,” Meezra commented. “Our goal is to provide parents and families the best option for their children in which we can care, nourish, and educate them for our future society.
