Namaste Motherf**kers is both an engaging autobiography and a highly controversial spiritual book. Namaste is Sanskrit for "I see the light within you" The book is divided into sections that follow the spiritual transformation of the author. It leaves readers to decide whether the profane will declare the author barking mad or whether those with the eye to see will recognise the divine insight. Interspersed with esoteric poetry, The Divine Theory of Light, quotes, and amazingly accurate prophesy, the author takes the reader on a rollercoaster journey through his life with some uniquely personal insights into the psyche. He explains how he managed to build a billion-dollar entity driven by the need to help his suicidal son and overcome the trauma and terrible sexual abuse that he endured as a two-year-old, only to have his past exposed and used to persecute and destroy both him and their company. Through sharing his brutally honest and painful story, the author gives the reader some unique insights into today's society, the business world, and his struggle to overcome shame and society's restraints, enabling him to transform into the entity that he believes he was destined to be.
