Exciting News: Sirius360 Launches On-Prem Solutions

Sirius360's DevOps Maturity Assessment now includes on-prem solutions, providing organizations with greater flexibility for their digital transformation.

BANGALORE, KARNATAKA, INDIA, May 31, 2023 /EINPresswire.com/ -- DevOps Enabler & Co. is thrilled to announce that Sirius360, the DevOps Maturity Assessment tool has expanded its offerings to include on-prem solutions.

What is Sirius360?

Sirius360 is a unique and customizable solution designed to empower businesses to seamlessly integrate DevSecOps principles and practices. Sirius360 provides an in-depth analysis and understanding of DevSecOps maturity, identifies gaps, and develops a tailor-made roadmap through detailed assessments and planning.

Introducing Sirius360 On-Prem:

Sirius360 On-Prem brings the same level of expertise, innovation, and customer-centric approach that their cloud solutions are known for. With this new offering, organizations can leverage the power of Sirius360 technology within their own infrastructure, while still benefiting from their comprehensive suite of services and unparalleled support.

Key Benefits of Sirius360 On-Prem:

Enhanced Control and Data Sovereignty: Organizations retain complete control over their infrastructure and data by opting for their on-prem solutions. This is particularly important for industries with stringent compliance requirements or data sovereignty concerns.

Seamless Integration: Sirius360 On-Prem seamlessly integrates with existing systems with minimal disruption to operations. Their team of experts will work closely with customers to design and implement a tailored on-prem solution that aligns perfectly with customer-specific requirements.

Sirius360 is Suitable for Every Type of Business

Regardless of the industry or vertical, Sirius360 can help organizations deliver agile, secure, scalable, and timely projects with a mature DevSecOps approach. The solution empowers businesses to identify the starting point of their DevOps journey and develop a detailed plan for future advancements.

Note: Existing cloud customers can continue to benefit from their robust cloud solutions. Sirius360 On-Prem is an additional offering to provide organizations with more flexibility and choice in their digital transformation strategy.
