In addition, in June 2021, AngioDynamics, a medical technology company, announced the United States Food and Drug Administration (FDA) clearance for the alfaVac Mechanical Thrombectomy System, which is an off-road sliding thrombectomy device. It is used for the non-surgical removal of thrombi or emboli from the vascular system. Therefore, the increasing number of supports for thrombectomy devices and increasing number of thrombectomy devices are driving the growth of thrombectomy devices industry. Lack of skilled professionals, lack of awareness about thrombectomy devices, and complexity of thrombectomy devices hinder the growth of thrombectomy devices in the market.
