Ace Card, the world's thinnest tracker works with Apple Find My & Android Find My Device. 1.9mm sleek design, 30-month battery life and a 105 dB ringtone.

SAN FRANCISCO, CALIFORNIA, UNITED STATES, May 30, 2023

/EINPresswire.com/ -- Today, we are thrilled to unveil [Ace Card](#), a groundbreaking innovation that sets a new benchmark in the world of wallet trackers. Ace Card proudly claims the title of the thinnest tracker card with a built in NFC Smart Business Card, measuring a mere 1.9 mm in thickness.

This remarkable achievement redefines what is possible in terms of slimness, while maintaining exceptional durability and functionality. The unibody metal design with faces made from tempered glass allows the card to withstand any environment. With a peace of mind for any of your belongings for up to 2.5 years, customers will enjoy along a loyalty program extending easy access to more cards in the future.

Ace Card fits into any wallet

With its slender form factor, Ace Card offers a level of convenience and elegance that was previously unimaginable. The precision craftsmanship is evident in its glass and metal unibody design, which not only exudes sophistication but also provides unparalleled strength and resilience. The Ace Card is built to withstand the demands of daily life, making it the perfect companion for individuals who appreciate both style and practicality.

One of the standout features of Ace Card is its remarkable battery life, which lasts an astonishing 2.5 years. This means that users can enjoy an extended

period of worry-free tracking without the hassle of frequently recharging or replacing batteries. Ace Card's exceptional longevity sets it apart from its competitors, making it the obvious choice for those seeking a reliable and long-lasting solution.

In addition to its remarkable slimness and longevity, Ace Card offers an optional NFC tag that can be seamlessly embedded within the card. This feature unlocks a world of possibilities with just a single tap. By leveraging the NFC technology, Ace Card enables users to trigger a smart business card profile, revolutionizing the way people network and connect. Imagine attending a conference or social event, effortlessly exchanging contact information, and leaving a lasting impression with just a simple touch. Ace Card empowers users to network smarter, eliminating the need for cumbersome business cards and enabling seamless digital interactions.

As a company committed to sustainability, Ace has ensured that Ace Card is built to last. By investing in durable materials and incorporating energy-efficient features, we strive to minimize environmental impact. We believe that sustainability and technological innovation can go hand in hand, and Ace Card is a shining example of our commitment to creating products that are both eco-friendly and cutting-edge.

"We are excited to introduce Ace Card to the world," said Mr. Saleem, Ace's CEO. "Our dedicated team of engineers and designers has invested countless hours into perfecting the card's design, ensuring that it combines unparalleled thinness, durability, and functionality. We firmly believe that Ace Card will revolutionize the way people organize their wallets while providing cutting-edge networking capabilities."

Ace is excited to announce that Ace Card will be available for immediate sale for the [Apple Find My version](#), and for [pre-order for Android & NFC](#) Smart Business Card. This will provide early adopters and tech enthusiasts with the opportunity to secure their very own Ace Card and be among the first to experience the future of wallet tracking and smart networking. Stay tuned for further updates and announcements, as we embark on this journey to redefine simplicity and convenience in everyday accessories.

About Ace:
