

LADWP Safety Improvements Underway after Homampour Law Firm, Frish Law Group Secure Landmark \$38 Million Settlement

LOS ANGELES, CALIFORNIA, UNITED STATES, May 30, 2023

/EINPresswire.com/ -- 1,600 of the city's most dangerous power poles are being upgraded thanks to plaintiff attorneys Danielle Lincors and [Arash Homampour](#) of the [Homampour Law Firm](#) and Vadim Frish and Stan Pekler of the [Frish Law Group](#), who last month won a landmark \$38 million settlement from the LADWP over the catastrophic accidental electrocution of a father and daughter in January 2021.

On the left is a blue 3D cube logo with the letters "F" and "G" on its faces. To the right of the logo, the text "FRISH LAW GROUP" is written in a dark blue, sans-serif font, with "APLC" in a smaller font size below it.

This case stands as a testament to Homampour's unwavering commitment to championing justice, regardless of the formidable challenges faced. It exemplifies the transformative impact that dedicated legal action can have in driving positive change and creating a safer environment for all.

"Our lawsuit successfully identified and shed light on the root causes of this tragedy, clearly demonstrating how it could have been prevented," Homampour said. "As a result, the DWP has undertaken a comprehensive overhaul of its power pole inspection program, prioritizing the addressing of 1,600 of the most hazardous power poles."

The settlement showcases how the best plaintiff firms will help their clients and the public at large, added Frish.

"In addition to the necessary repairs, the DWP has launched an extensive public safety campaign, proactively delivering precautionary notices to residents residing near high-priority poles, reaching approximately 3,200 homes and businesses," Frish added. "This ensures that community members are well informed and prepared for potential risks."

Los Angeles County Superior Court, Case No: 21STCV14634.
