

Todd Farrell Named CEO of Liberating Technologies, Inc.

BOSTON, USA, June 1, 2023

[/EINPresswire.com/](https://www.einpresswire.com/) -- Liberating Technologies, Inc. (LTI), a [Coapt LLC](#) R&D company, has named Todd Farrell, PhD as CEO. Dr. Farrell joined LTI in 2008 and has most recently held the position of Director of Research. Todd has successfully led LTI in receiving over 45 federally funded research awards, totaling over \$24.9M.

Farrell's new appointment reflects the strategic initiative of LTI and Coapt to further expand its leadership in orthotics and prosthetics (O&P) research and development.

"LTI is positioned with the right resources, passion, and people to continue to make significant impacts in O&P. More than ever before we have the opportunity to turn the results of this important work into real clinical benefits," Farrell said.

Blair Lock, CEO of Coapt, "Todd is a proven and awarded academic leader in our field. His command of the talent and progress at LTI is outstanding and he is unquestionably the right leader for LTI's expanding future in O&P."
