Dr. Abraham (Avi) Ishaaya, MD, FCCP, FAASM, FACGS, MACGS is Among the First Doctors in America to be Named a Best Doctor by the Women's Choice Award

LOS ANGELES, CA, USA, May 31, 2023

/EINPresswire.com/ -- --

WomenCertified Inc., home of the Women's Choice Award and partner to hundreds of hospitals and healthcare facilities, now identifies the Best Doctors across America, based on numerous points of objective criteria such as certifications and affiliations, minimum years of experience, medical license and medical background checks, and a unique and stringent process of analyzing patient reviews from across numerous publicly available sources that would yield a minimum of a 4.2 patient satisfaction rating.

[Dr. Abraham \(Avi\) Ishaaya](#) has earned the 2023 Women's Choice Award Best Doctors designation demonstrating a strong commitment to patients. Dr. Abraham (Avi) Ishaaya strives to enhance his patients' quality of life, providing individualized care for optimal results.

What sets Dr. Ishaaya apart from other doctors is his exceptional availability, vast knowledge, and deep personal concern for his patients. He does this by performing diagnostic tests for health issues regarding cardiometabolic, heart, lung, telomere, allergy, asthma, and sleep issues. [Dr. Avi Ishaaya Centers](#) is outfitted with state-of-the-art technologies at his practice. He is also one of the leading physicians in Los Angeles, CA who offers overnight sleep studies to diagnose and treat sleep disorders.

Dr. Ishaaya is board certified by the American Board of Internal Medicine, the American Board of Pulmonary Medicine, the American Board of Sleep Medicine, and the American Board of Geriatrics.

Delia Passi, Founder of Women's Choice Award and leading consumer advocate for women says, "Women carry the burden of finding the best doctors for her and her family. We have helped millions of women find the Best Hospitals, Mammogram Centers, Breast Centers and Nursing Homes for a dozen years and it's time we help her find the Best Doctors".

Earning the Women's Choice Award is particularly challenging as it entails meeting specific criteria points as indicated in a national survey by women across America. And as research shows, women are the chief healthcare officers of the household, and have the highest expectations of their providers- as they should.
