

THE PROLIFT RIGGING COMPANY ACQUIRES NEW WAREHOUSE FACILITY IN PHOENIX, ARIZONA

ProLift Marks Significant Increase in Storage Capacity for Industrial Machinery & Components in the Southwest.

PHOENIX, ARIZONA, UNITED STATES, May 31, 2023 /EINPresswire.com/ -- The ProLift Rigging Company, A leading supplier of solutions-based industrial construction services, announced, today, that it has recently added a second industrial warehouse facility in the Phoenix area.

Located at 5750 N 101st Ave in Glendale, Arizona, the newly constructed facility significantly expands ProLift's Phoenix-area secure indoor storage capacity by 251,000 square feet and outdoor storage capacity by 85,000 square feet. The property features 63 dock doors, four grade-level doors and approximately 3,000 square feet of office and training space. The facility may also be divided into sealed climate-controlled, and humidity regulated zones; utilizing modular section dividers and environment-controlling equipment.

The addition brings the total amount of ProLift's available storage space in the Phoenix metropolitan area to a total of 432,000 square feet.. The warehouse will be staffed and managed by ProLift's

existing Phoenix Branch which has already mobilized specialized equipment to this location for [machine moving](#), maintenance and other necessary functions.

“Industrial construction projects in the United States, especially in the Southwest, are having a moment” Said Matt Brennan, President & Chief Executive Officer of The ProLift Rigging Company,” There exists tremendous demand for the storage and buffering of delicate machine components

across multiple construction verticals, and a limited supply of space; our new facility will provide ProLift customers with the safe, controlled storage they require while simultaneously adding logistical efficiencies to their supply chain.”

ProLift's new storage facility features 251,000 square feet of secured, indoor space.

“

Our new facility will provide ProLift customers with the safe, controlled storage they require while simultaneously adding logistical efficiencies to their supply chain.”
