The highly anticipated event, which is expected to showcase a dozen or so speakers who will share perspectives and insights in their respective areas of expertise with Amazon sellers from all around the world, is set to happen on the 13th of May 2023, Saturday, from 09:00 to 17:30 BST at the America Square Conference Centre, One America Square, London, EC3N 2LB, United Kingdom. This will be the fourth one after 3 sold-out events attended by 7-figure and 8-figure Amazon sellers.

Seller Sessions Live is a UK conference especially

established for Amazon sellers to learn from well-reputed experts who will be talking about their knowledge and experience. Its goal is to help rising entrepreneurs and even those who want to soar higher navigate the Amazon platform more efficiently through proven tactics from those who are already 7-figure and 8-figure earners.

Among the topics of the speakers will be:

1. Amazon PPC
2. A9 Algorithm
3. External Traffic and Conversion Optimization (on and off the platform)

“VAA Philippines is honored to be part of this transformative event. We share the same goal of helping Amazon sellers reach their maximum potential. In VAA, for example, we focus on providing Amazon VA services to sellers who need professional support,” VAA CEO Gilad shares.

VAA specializes in selecting Virtual Assistants for their skills and experience and giving them comprehensive Amazon training to match the needs of sellers.

“With the constantly changing trends in the market, it’s important to seek assistance from professionals who are equipped with the right skills in performing the technical, administrative, and operational tasks so you as sellers can focus on scaling,” Gilad adds as he emphasizes the significant role of Amazon VAs in the success of an Amazon business.

In the upcoming Seller Sessions Live, Amazon sellers will learn a lot more about the intricacies of the Amazon business. Gilad foresees that sellers will be able to understand more why they need to entrust some tasks to Virtual Assistants who were trained to handle them. Among these Virtual Assistants are the following:

- Amazon Expert VA
- PPC Specialist VA
- Social Media Specialist VA
- Creatives Expert VA
- Executive Assistant VA
- Wholesale Expert VA
