

Emphasis on Patient Care Earns Cosmetic & Implant Dentistry of Connecticut the Talk Award

With the highest possible customer satisfaction rating every year since 2010, Cosmetic & Implant Dentistry of Connecticut has won a 14th consecutive Talk Award.

HAMDEN, CONNECTICUT, UNITED STATES, May 31, 2023

/EINPresswire.com/ -- Known for its high-tech, cutting-edge dental service, [Cosmetic & Implant Dentistry](#) of Connecticut has been honored once again for its patient service and satisfaction with the [Talk Award](#).

With two locations to serve the New Haven area, Cosmetic & Implant Dentistry of Connecticut offers comprehensive dental care for the whole family, all under one roof.

“

Our team is approachable, and we work to ensure each patient is given the individual attention required and deserved.”

Dr. Aaron M. Gross

What began as a neighborhood practice founded in 2001 by Aaron M. Gross, DMD, has grown into a widely known and respected boutique cosmetic and general dental practice. Dr. Nicole B. Becker and Dr. Dominic Gambino have since joined the practice, continuing the tradition of high-quality dental care.

“Our goal is to provide comprehensive dental care for you and your family in a comfortable, relaxed and state-of-the-art environment,” says Dr. Gross. “Our patients come from far and wide to experience the exceptional care we offer. Our team is approachable, and we work to ensure each patient is given the individual attention required and deserved.”

Having received specialized training in their respective fields of dentistry, the three dentists at

Cosmetic & Implant Dentistry pursue continuing professional education so they can maintain the highest standard of care and handle even the most complex dental care needs.

The most cutting-edge dental practice in the area, Cosmetic & Implant Dentistry provides patients with the most advanced materials, techniques and equipment available. Whether it's new techniques for teeth whitening or immediate implants, Dr. Gross is known for finding and implementing the most technologically advanced services for his patients.

"Our passion for dental technology is rooted in our passion for our patients," says Dr. Gross. "Our mission is to give you a smile that's both healthy and beautiful. We achieve this by using technology that results in earlier and more accurate diagnoses, more precise treatments, and better patient outcomes."

However, Dr. Gross and his team are not only concerned with providing the most technologically advanced care. Providing patient-focused care is at the heart of everything they do. "What sets our practice apart is our willingness to go the extra mile for patients," adds Dr. Gross.

Sue D. had nothing but praise. "I had the best care here. The dentists and staff are kind and compassionate and really went above and beyond helping me in my dental emergency as well as my routine dental care. I would highly recommend this office for anyone, especially those fearful of dental work."

According to Laurie N., the experience is excellent every time. "The best dentist I have ever had! Always worth the drive from our home in Vermont!"

Barbara R. agrees. "Absolutely the most wonderful experience I have had in a very long time!! Professional, friendly and experience in every staff member. Dr. Gross was knowledgeable and so easy to talk to. 5 stars isn't good enough for this practice. Highly recommended you will not be disappointed. Thanks to everyone!"

With high praise from clients like this, it's no wonder the practice has a reputation for excellence and a host of patient satisfaction awards.
