“

A force ready to be reckoned with, Guthrie's gone to school on many great players, forging his own alchemy. THE GUY to watch in the next few years!"

*Vince Gill*

Described by legendary singer-songwriter John Oates as "one of the greatest soloists" he's ever heard, Guthrie is also a passionate educator. 'Roots Recharge' draws on his extensive experience performing and recording with a veritable 'Who's Who' list of marquee artists including Garth Brooks, Trisha Yearwood, Vince Gill, Travis Tritt, Dolly Parton, George Jones, Alison Krauss, Sam Bush, Earl Scruggs, Lyle Lovett, Jerry Douglass and many others.

Using 10 studio-recorded backing tracks in a variety of popular roots-based genres and feels, Trapp expertly demonstrates and breaks down his 'recharged' rhythm and soloing techniques. TrueFire's learning tools include auto-scrolling tablature and notation, which is synced to all video lessons with looping and slow motion controls. Multi-angle video views, fretboard animations, and dozens of other tools allow students to learn at their own pace and personalize

their learning experience.

To complement the masterclass, Guthrie's immersive 'Roots Recharge' edition of TrueFire's 'In The Jam' app features full-length versions of all 10 tracks including individual rhythm section tracks and video tracks of Guthrie playing rhythm and lead guitar parts. Using TrueFire's mixer console, students can switch video angles and mute, mix or solo any of the audio tracks. The ideal way to apply key learnings from the masterclass, students can mute any instrument to play that part with Guthrie and the band.

The 'Roots Recharge' desktop app and its companion 'In The Jam' app are available for download to any desktop or mobile device (Windows, Mac, Android or iOS). Streaming versions are also available for any browser and on Apple TV and Roku.
