

Sentech and Faour Glass Partner to Widen Impact Resistant Glass Offerings

Partnership expands the range of tested impact-resistant structural glass systems.

TAMPA, FLORIDA, UNITED STATES, May 31, 2023 /EINPresswire.com/ -- [Sentech Architectural Systems](#) and [Faour Glass Technologies](#)' *Slimpact* product line are working together to expand the range of tested impact-resistant structural glass systems. The partnership is an agreement to offer and potentially co-develop each other's products and systems across the U.S., states Diarmuid Kelleher, Sentech's director of engineering.

He adds that the partnership will allow for a combined offering of impact-resistant, fin-supported glass walls up to 28 feet tall, frameless glass walls up to 20 feet in height and jumbo impact-resistant glass door systems.

Sentech Architectural Systems and Faour Glass Technologies' *Slimpact* product line expand the range of tested impact-resistant structural glass systems.

The partnership also ensures that architects can design monumental structural glass facades on projects in windborne debris regions without requiring project-specific testing, according to the companies.

The partnership is an agreement to offer and potentially co-develop each other's products and systems across the U.S."
