

# US PTO granted IT-Conductor the Patent for its Cloud-based Application and Performance Management Automation Platform

*IT-Conductor's Co-founders David Staviski and Linh Nguyen were named inventors of the Cloud-based Application and Performance Management Automation Platform*

CUPERTINO, CALIFORNIA, USA, May 31, 2023 /EINPresswire.com/ -- IT-Conductor Inc., the IT Automation Software-as-a-Service (SaaS) company, today announced the issuance of US Patent No. 11,329,899. The patent, titled "Cloud-based Application Performance and Automation", provides IT-Conductor with a system for monitoring, managing and orchestration of one or more customer applications and IT infrastructure through the cloud and a secure communication gateway in the customer's network. The agentless approach to monitoring and managing APM data allows light weight and secure deployment, adaptable to customers both on-prem and in the cloud, where the core automation capabilities enhance the observability and root-cause analysis for availability and performance issues in complex enterprise IT environments.

“

IT-Conductor's unique blend of powerful cloud and agentless capabilities strikes a balanced approach between cost and agility to Application Performance Management and IT Process Orchestration”

*Linh Nguyen, CEO & Co-founder, IT-Conductor*

"IT-Conductor's unique blend of powerful cloud and agentless capabilities strikes a balanced approach between cost and agility to [application performance management](#) and IT process orchestration," said Linh Nguyen, CEO, and Co-founder, IT-Conductor. "This patent reflects years of innovation since our founding in 2014 and many successful enterprise customer deployments. We're excited to continue implementing useful APM and IT operations automation for customers based on our platform's speed and agility."

As enterprises continue to strive for higher efficiencies in IT operations while delivering better service levels to the

business during tight economic times, they also look for low-code or no-code, and low friction integrated SaaS platform which can offer "everything-as-a-service" at a fraction of the time and

cost. The granted patent forms the basis for IT-Conductor to offer services in the areas below:

Application Performance Management

[Workflow Automation for IT Operations](#)

[End-to-end Cloud Migration Automation](#)

Managed Service Provider (MS) Enablement
