

Jayson Uribe of Code 3 Consultations to be Featured on Close Up Radio

NAPA, CALIFORNIA, UNITED STATES,
June 1, 2023 /EINPresswire.com/ --

Jayson Uribe is a talent whose name is synonymous with achievement. From his youngest days in motor sports to his more recent business successes, he has had lofty ambitions, moved fast, worked diligently and outperformed others. For this amazing young man, it is not a matter of achieving for self-grandeur; the quests that count most to Jayson are ones that enable him to solve nagging problems and help other people. That holds particularly true for his work as a volunteer firefighter and his Code 3 Consultations services -- diagnosing vehicular occurrences and providing expert witness testimony.

While Jayson is recognized for his career as a motorcycle rider and motor sports trainer, his recent focus has been as an accident investigator who specializes in vehicular analysis of car, truck and motorcycle-related incidents. Jayson carefully determines the probable cause of them and helps clients uncover the truth in court cases. When diagnosing such situations, he uses 3-D recreation technology, an advanced degree, and an innate understanding of vehicle mechanics and road conditions.

Jayson brings a lot to the table. He has innate curiosity, flexibility, determination, and many other traits of a top investigator. He also boasts 20+ years of experience in the motorsports industry, a coaching background, a 5-year EE degree plus apprenticeship, and several years of experience in private vehicle investigations. In addition to his expert witness testimony and analyses, Jayson continues to ride (largely for pleasure) and fight blazes .

Jayson had been interested in firefighting for a long while and finally found the means to make his wish come true. He underwent the 6-month training program from the Napa County Fire

Department in June of 2019, and has been a member of the volunteer-staffed Station 21 in Deer Park ever since. There he faced massive fires like the ones that destroyed the LNU Lightning Complex and (nearly) the landmark Rombauer Vineyards.

Jayson explains his ventures into firefighting and his investigative business(as well as his life overall) with a single thought : "It's this thing I have. I can't sleep wondering about these scenarios, day and night. When I'm eating, in the shower, even when I'm driving. I have to know more about what happened and find out the genuine answer to the puzzle."

Learn more about Jayson's stamina, knowledge, business success, and future goals in the June episodes of his seven-part series. Jayson will talk about his work and share some cases when his findings made all the difference.

Close Up Radio will Feature Jayson Uribe of Code 3 Consultations in Interviews with Doug Llewelyn on Mondays in June, the 5th ,12th and 19th, each at 11:00am EDT

Listen to the Shows on [BlogTalkRadio](https://www.blogtalkradio.com)
