## Retro Vintage Sunglass Frames: Inspired by Iconic Figures

Fabulous Fanny's also takes inspiration from iconic figures to create classic retro vintage sunglasses frames that blend timeless elegance with contemporary flair. Let's explore some of these remarkable designs:

Norma Sunglasses: Inspired by Marilyn Monroe - we've made two eyewear frames in her honor, the Norma and the Jeane. If you want to know "How To Marry A Millionaire," start with these frames and let the story unfold.

Vince Sunglasses: Our Vince "browline" glasses are seeing an enormous renaissance today because the style almost universally fits everyone. What makes our design so fabulous are the two sizes, all the colors, and the intense focus on quality - all truly unmatched at this price point.

James Sunglasses: Inspired by James Dean, our James frames will give today's rebels plenty of cause to wear them.

Burns Sunglasses: Inspired by George Burns, we've updated Burns for those who believe anything but bold is boring.

Bob: Of all the glasses Bob Dylan wore over the years, he inspired us most with these classic cable temple designs. Comes with classic clip-on sunglasses to boot.

Winston Sunglasses: "You have enemies? Good. It means you've stood up for something, sometime in your life." Winston Churchill.

Gatsby Sunglasses: The Roaring 20s are back 100 years later and better than ever. Made with original cable temples, these sunglasses are the cat's meow.

#### PRESERVING ORIGINALITY SINCE 1993

Over the last 30 years, Fabulous Fanny's has cultivated New York City's passion for vintage eyewear from a bygone era when everything was built to last, and movie stars became legendary. Named after one of the original owner's pet macaw, the increasingly popular store moved from its roots at New York's Chelsea Flea Market to the East Village – the center of New counter culture – to meet the city's increasing demands. As Fabulous Fanny's enters its third decade, optical industry legend and fellow vintage lover BOB HILLMAN (Founder, Pearle Vision & Eyelab) continues excitement and allure for a new generation looking to express originality in ways both old and new.
