Modi on a Mission

Award-Winning Indian-American Filmmaker and Director Mukesh Modi's release of "The Elevator," starring Oscar-nominated Eric Roberts and Eugenia Kuzmina debuted in theatres on streaming platforms with a successful release, but more importantly, Modi realized a major gap in the process that oftentimes leaves filmmakers at a loss from distribution to return on investment. While studios have been backlogged with a long list of films to be released, independent filmmakers are finding themselves at a deficit between securing distribution, financing, placement/release, and giving away a significant percentage of return to a streaming service—resulting in a fruitless waiting game, pain-staking process and upside-down investment.

As an industry innovator, Modi decided to BE the change by launching a widely successful streaming service—Indie Films World (IFW)—that not only creates a no-nonsense solution for independent filmmakers, but also a portal of the latest and top-rated variety of films for audiences who have grown tired of the same collection of films available on mainstream platforms.

Modi is unstoppable after making his first feature film "The Elevator" he has made web series "Mission Kashi" in Hindi language which was release in October 2022 on Indie Films World Platform. Modi's 3 more films will be released this year.

"TORN" starring Alfonso Freeman he is a son of Morgan Freeman. Torn is Psychological Thriller Feature Film.

"THE KITCHEN PARTY" short English film

"2024 ELECTION WAR" Indian Political Drama Film

Now he is coming with Indie Film Festival Awards, film festival for Independent Filmmakers. IFFA will support Indie Filmmakers in distribution their films, release their contents on Indie Films World Streaming platform. IFFA will make Independent Filmmakers dreams come true by guiding them in all the stage of filmmaking.
