

Future Electronics to Host Tech Day Event in Boston

Future Electronics is hosting Tech Day in Boston on June 13th, 2023 featuring new technologies, demos, and keynote presentations.

BOSTON, MASSACHUSETTS, UNITED STATES, June 5, 2023

/EINPresswire.com/ -- Future Electronics, a leading global distributor of electronic components, is hosting a series of Tech Day events in 2023 beginning in Boston, Massachusetts on June 13th, 2023.

The theme is Driving Innovation in Connectivity and Intelligent Systems and the event will feature presentations from specialists, the opportunity to learn about new technologies and products, and networking with electronic component suppliers.

Tech Day will feature an array of technologies, demonstrations, and discussions with specialists and industry experts, as well as local support. Attendees will have the opportunity to meet with dedicated specialists from Wireless/Bluetooth Connectivity, Sensors, FPGA, Internet of Things, Security, MCU, MPU, and more. A delicious lunch will be served, during which keynote speakers will be on-stage.

The event will also feature two hour-long sessions: one on Edge AI Semiconductor Advancements (discussing the advancements in machine learning, its widespread applications, and showcasing a range of solutions), and another on the latest trends in Wireless Technologies (including discussions on WiFi-6, 5G cellular, Angle of Arrival in UWB and BLE, and does Matter really matter?).
