BYDFi Convert Adds 24 Leveraged Tokens

BYDFi crypto exchange has launched 24 new leveraged tokens.

BYDFi supports leveraged tokens that cover a wide spectrum of popular cryptocurrencies, including [BTC](#), [ETH](#), [XRP](#), [DOGE](#), and [SHIB](#). Following the introduction of numerous [leveraged token](#) trading pairs in mid-May, BYDFi is delighted to launch the addition of 24 new leveraged token trading pairs for crypto users who enjoy trading with leveraged tokens.

BYDFi has added leveraged tokens for \$SOL, \$LUNA, \$SKL, \$GALA, \$FLOKI, \$HBAR, \$AXS, \$ALGO, \$QNT, \$FIL, \$XLM, and \$JASMY. "We have observed a high level of user interest in these tokens, which indicates the need to cater to users who want to trade leveraged tokens," said Michael Hung, the CMO of BYDFi.

Leveraged tokens have garnered considerable interest among traders who seek amplified exposure and potential returns in the volatile cryptocurrency market, offering a simplified alternative to complex margin trading strategies. The introduction of 24 new leveraged tokens by BYDFi provides users with an expanded range of options for trading leveraged tokens.

Driven by its unwavering commitment to user experience, BYDFi has emerged as a prominent player in the cryptocurrency exchange industry. In addition to introducing a wide array of leveraged tokens, BYDFi maintains its competitive edge by offering a comprehensive range of

features such as minimal slippage, robust liquidity, and an impressive maximum leverage of up to 200x. These attributes combine to create a dependable and high-performing trading environment, empowering traders with a platform they can trust.
