

# Appknox and Bitshield Forge Strategic Partnership to Strengthen Mobile App Security Solutions in Malaysia

*Appknox, a leading provider of mobile app security solutions, is pleased to announce its partnership with Bitshield Data Defense Sdn.Bhd., in, Malaysia.*

KUALA LUMPUR, MALAYSIA, June 8, 2023 /EINPresswire.com/ -- [Appknox, a leading provider of cutting-edge mobile app security solutions](#), is pleased to announce its partnership with [Bitshield Data Defense Sdn.Bhd., a renowned cybersecurity company](#) based in Kuala Lumpur, Malaysia. This significant collaboration represents a significant milestone in advancing mobile application security in the region, effectively addressing the growing demand for robust protection against emerging threats.

This partnership combines Appknox's expertise in mobile application security with Bitshield's extensive reputation and reach in Malaysia for cybersecurity, creating a formidable alliance that aims to revolutionize the mobile app security landscape in Malaysia.

Appknox and Bitshield Forge Strategic Partnership to Strengthen Mobile App Security Solutions in Malaysia

# appknox

Appknox is the world's most powerful plug-and-play security platform

As the mobile app industry continues to witness exponential growth, the need for comprehensive security measures becomes increasingly crucial. Appknox's highly reliable platform offers advanced [automated vulnerability security testing](#), manual vulnerability scanning (Penetration Testing), and continuous monitoring capabilities, empowering businesses to identify

and resolve security gaps in their mobile applications proactively. With this partnership, Appknox brings its state-of-the-art solutions to the Malaysian market, enabling organizations to ensure the utmost security for their mobile apps.

Bitshield, with its proven track record in the cybersecurity domain, brings a wealth of local knowledge and expertise to the collaboration. Their deep understanding of the Malaysian market, coupled with their strong network and technical prowess, will play a pivotal role in delivering Appknox's solutions effectively across the region.

By joining forces, Appknox and Bitshield aim to establish a new standard for mobile app security in Malaysia, helping organizations protect their valuable assets and user data from potential cyber threats.

“

"With the exponential growth of mobile apps and the corresponding rise in cybersecurity risks, this partnership couldn't have come at a better time."

*Harshit Agarwal, Co-founder  
and CEO of Appknox*

"We are delighted to partner with Bitshield and expand our presence in the Malaysian market," said Harshit Agarwal, Co-founder and CEO of Appknox. "With the exponential growth of mobile apps and the corresponding rise in cybersecurity risks, this partnership couldn't have come at a better time. By combining our strengths, we are confident in our ability to provide top-notch mobile app security solutions to enterprises and developers in Malaysia, safeguarding their applications and securing

their digital transformation journey."

Both companies share a common goal of empowering businesses with cutting-edge security solutions while maintaining a user-friendly and seamless experience. This partnership signifies the alignment that aims to deliver unparalleled value to customers in Malaysia, helping them stay ahead of emerging threats and ensure the highest level of security for their mobile applications.
