BOSTON, MA, USA, June 7, 2023

/EINPresswire.com/ -- [Creatio](#), a global vendor of one platform to automate workflows and CRM with no-code and a maximum degree of freedom, today announced a new exclusive partnership with Qualysoft in Hungary.

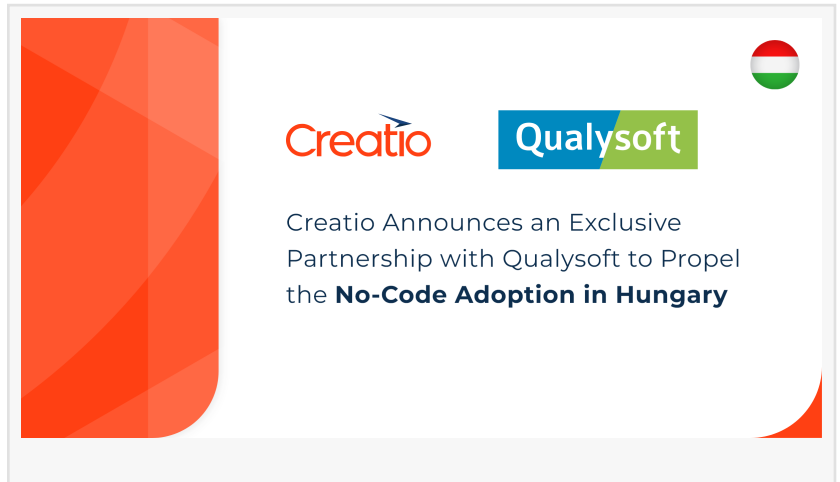

The agreement between partners grants exclusive rights for Qualysoft to work with Creatio's no-code platform, localize and hold training and certification in Hungarian and establish partnerships on behalf of Creatio to further develop the Hungarian market.

Qualysoft is a long-standing Creatio's partner, providing IT consultancy and services to support its international customers by providing tailored IT solutions that are both flexible and innovative. Building on the existing strategic partnership, Qualysoft and Creatio commit to heavily co-invest in the market in Hungary. The partnership is aimed at further evangelizing the no-code approach and Creatio's unique composable capabilities.

The exclusive partnership enables Qualysoft to establish a center of competence to run localized training and certification practices at its facility for Creatio. This includes offering the Creatio Academy training and courses, and certification programs in Hungary.

"As Creatio is dynamically growing around the world, we are thrilled to strengthen and expand our existing partnership to develop the markets. Qualysoft has been our trustworthy partner for many years, and we are happy to broaden the scope of our alliance to empower even more organizations to experience the freedom of automation with no-code," said Katherine Kostereva, CEO at Creatio.

"The progress and the importance of low-code within the global IT ecosystem speaks for itself.

We are very happy to work with Creatio – an outstanding partner in attitude, in team and in the field of technology as well. It is an honor to be the part of this success story. "

Creatio offerings include a no-code platform (Studio Creatio), CRM applications (marketing, sales and service), industry workflows for 20 verticals and marketplace add-ons.
